

Memo

CHIEF EXECUTIVE OFFICER

To: STA
From: E. Susan Meyer
Date: April 19, 2022
Subject: Mask Mandate Lifted

Yesterday, April 18th, 2022, both the Transportation Security Administration (TSA) and Centers for Disease Control (CDC) announced a change to their policies regarding mandatory masking. There is no entity either requiring masking on public transportation or enforcing the prior regulations.

Effective immediately, masks are no longer required for STA employees, riders, or visitors to STA facilities. Masks are still welcome for anyone who chooses to wear one.

This change is the result of a court order. It is possible for this ruling to be appealed. We will communicate any changes as they arise.

In addition, employees and visitors are no longer required to check their temperature when entering STA facilities.
